TASTING NOTE

Each plot of Albariño is harvested at different times of maturation, obtaining varied wines from the same vineyard. When harvesting early, the most citrusy and floral side is highlighted. Whereas, two weeks later, aromas of fruits like melon and peach appear.

VINEYARD

Albariño planted in Juanicó and Garzón - two vineyards with different soil profiles, both with coastal influence. Over time, Juanicó's clay-limestone terroir showed better expression of our fresh, aromatic style. Early harvest brings citrus/floral notes; later harvest adds melon and peach. Both contribute mineral character.

VITICULTURE

Sustainable certified.

VINIFICATION

Reductive, protected from oxigen in stainless steel tanks.
