

Alma de Vid

Airén 2024

TASTING NOTE

White flower blossom fills the nostrils, followed by green apples and apricots which then take form in the mouth; the result is a highly quaffable white from south central Spain.

VINEYARD

Vineyards are planted in well-drained soils under a dry continental climate with high sunlight exposure and strong temperature contrasts between day and night. These conditions promote healthy ripening, good acidity retention, and expressive, aromatic grape profiles.

VITICULTURE

Yields are controlled to enhance grape quality, and harvesting is timed to preserve freshness, acidity, and aromatic intensity.
