# Leonía Rosé 2021

WHITE  
CHAMPAGNE &  
SPARKLING

ITALY

TUSCANY

## VITICULTURE

The vineyards are located in the cool, elevated terroir of Pomino, where altitude, fresh mountain breezes and well-drained soils encourage slow, balanced ripening. Sustainable vineyard practices and careful canopy management preserve freshness, aromatic intensity and the natural acidity essential for producing an elegant sparkling rosé.

## VINIFICATION

Crafted by the traditional method, the base wine undergoes bottle fermentation followed by extended ageing on lees to build texture and complexity. Gentle pressing preserves finesse, while careful dosage balances vibrant acidity, yielding a refined sparkling rosé with precision and elegance.
