SUITABLE
FOR VEGANS

TASTING NOTE

Soft and elegant with ripe damson fruit character, subtle tannin and a long elegant finish.

VINEYARD

The most widely planted grape variety in France, Merlot adapts to various climates and produces supple, very fruity red wines.

VINIFICATION

The grapes ferment and macerate for 8 to 12 days at a temperature of 24-28°C to extract aromas and colour. After draining and pressing, the free-run and press juices are separated, then malolactic fermentation is carried out. The wine is then racked, and aged for 6 to 10 months in concrete and stainless steel tanks before final blending and bottling.
