CLOSURE	Screw cap
PH	3.39
TOTAL ACIDITY	6.2g/l Tartaric
RESIDUAL SUGAR	3.6g/l
SKU	Z0566126

TASTING NOTE

Fruity South African Chardonnay, complex and rich, flavoured with melon, tropical fruit and a dollop of butterscotch, offset by refreshing, juicy citrus notes.

VITICULTURE

Sourced from two vineyards in the Agter-Paarl region.

VINIFICATION

Grapes are hand harvested at full ripeness. After pressing and settling, the must is inoculated with South African yeast. 15% of the wine is fermented in small American oak barrels; the remaining wine is fermented in stainless steel tanks. After fermentation the wine is placed in stainless steel tanks, lying on the lees for 5 months with regular stirring.

FOOD MATCHING

A versatile wine that will complement virtually any food. Serve chilled.
