VINEYARD

Grapes for our La Volpe Nebbiolo are selected from areas of our vineyard that naturally produce softer, elegant, floral styles of Nebbiolo

VITICULTURE

The season began wet and cold like recent years, suggesting a tough vintage ahead. But the rain eased, and warm, dry weather followed. Summer brought ideal grape-growing conditions with mornings around 15°C and afternoons peaking at 30°C. This vintage promises excellent wines for now and long-term aging.
