## VITICULTURE

Old vines in vase from Rioja Alavesa, subzone of Sonsierra and Alto Najarilla, where varieties of different types of soils are mixed between clay-carcareous and more ferrous soils, with different microclimates.

## VINIFICATION

Direct pressing of the grapes, static racking. Alcoholic fermentation of the different varieties separately at a controlled temperature between 14-16°C, with subsequent blending.

## FOOD MATCHING

Perfect food pairing with grilled fish, seafood and rice dishes among others. Ideal to enjoy by the glass, as a starter or with a small aperitif on a terrace.
