NAHE

VINEYARD

This outstanding single vineyard above Laubenheim forms a valley basin that opens to the southwest. In this amphitheater-like setting, the heat is well absorbed and stored in the weathered red sandstone soil. As a result, the grapes here always ripen earlier than usual, producing calm, powerful, spicy-fruity Rieslings with a firm structure and restrained acidity.

VITICULTURE

Weingut Tesch was an early adopter of environmentally friendly viticulture and unstinting care for the vineyards. The estate's dedication to sustainability means that it works without the use of herbicides, insecticides or mineral fertilizers.
